

## HTH® Stabiliser

### Directions for use:

(Based on a 50 000l pool)

Use only as directed.

Every 1KG of HTH® Pool Stabiliser will raise the stabilizer level in a 50 000liter pool by 20ppm.

1. Disconnect the automatic pool cleaner
2. Clear pump and weir baskets
3. Backwash the filter for 2 mins and rinse the filter for 20 seconds
4. With the pump on the filter position, slowly pour the contents of HTH® Pool Stabiliser directly into the weir.
5. Filter for 24 hours continuously.
6. Reconnect the automatic pool cleaner.
7. Continue with normal filtration and chlorination.
